Property has plenty of space

HITCHAMSBURY Homes has been building upmarket bespoke properties in the home counties for 30 years.

The first of the two new houses built by the company in Assheton Road, Beaconsfield was released for sale in November and sold within three weeks.

The second property has now been completed and is available to view. It's for sale for £1.85 million through The Frost Partnership in Beaconsfield.

There are five/six bedrooms over the two upper floors depending on whether you choose to use the sixth bedroom at the top of the house as an extra bedroom or media room.

Three of the bedrooms are en-suite and there's also a family bathroom.

The kitchen flows into the family area creating a room that's 35ft long. It also

leads into the 21ft lounge, making an L-shaped area large enough for a wedding reception complete with orchestra.

The specification includes underfloor heating on the ground floor and first floor; bi-fold doors in the family area opening onto the garden and fitted wardrobes in all the bedrooms.

The kitchen has Silestone worktops, custom made units and a full range of built-in appliances including Liebherr larder fridge and freezer, wine/drinks fridge, Grohe hot tap and Fisher and Paykel dishwasher drawers.

Other features include Cat 6 cabling for state of the art TV and communications, TV and BT points in all the principal rooms and a multi room audio system.

For more details call The Frost Partnership on 01494 681234.
