

DESIGNED TO INSPIRE

Hitchambury explains the unique appeal of their new homes in Burnham Beeches

Every Hitchambury home has its own distinctive appearance, seamlessly blending classic style with contemporary features both inside and out. The company is very proud of its product and has worked hard to build a reputation for creating spacious, light and bright homes that have been designed to the highest specifications with outstanding attention to detail - Woodcote & Cedars will be no exception.

The use of light is key to the design of a Hitchambury Home, and adds a sense of uniqueness when inside, that brings one closer to the outside world.

The maximisation of daylight and space are the key design themes throughout both homes. You notice this as you approach each of these 6000 sqft homes, with an infinity view right through the house. Enter through the imposing entrance to discover a breathtaking three-storey vaulted atrium, which stretches the height of the ground, first and second floors. The vast lantern skylight allows light to flood the house highlighting the many vistas and immediately you appreciate how naturally the house

flows. A unique attribute and feature which Hitchambury Homes is proud to offer.

Susie Baldwin, Sales & Marketing Director for Hitchambury Homes, comments: "The home boasts open and spacious rooms, each finished to an impressive specification. They provide a perfect opportunity for purchasers to enjoy luxurious living with the added benefit of being part of village life."

She continues, "With a spacious and light interior, you need never feel you are on top of each other. Each home offers a stunning galleried entrance hall with remarkable space and each benefit from an impressive glass and walnut staircase giving access to the first and second floors. In addition, the large feature front windows and several further roof lanterns, ensure that the maximum of light is enjoyed throughout.

"On the first floor there are four generous bedrooms – all en-suite. The impressive master bedroom suite features full length glazed windows, large en-suite bathroom with shower and bath to relax in, and a fabulous walk in dressing room where the sense of quality and luxury enwrap you. On the second floor you have two further

generous bedrooms, a family bathroom and large dual aspect leisure room which is large enough to easily accommodate a games table, be used as a cinema room or gym."

No expense has been spared when designing these two stunning homes, with Villeroy & Boch sanitary ware in all bathrooms, en-suites and cloakrooms, and thoughtfully-designed luxury kitchens by Stonehams with an extensive range of Miele fitted appliances. They offer a truly indulgent lifestyle that won't fail to impress from the moment you step through the door.

Susie continues: "Outside the homes have delightful landscaped gardens and are set in a private gated development providing a safe and peaceful community in which to live. The homes are located close to the village and with fantastic links to London; we have no doubt that they will both be a huge success."

● **The homes will be launching in early 2012 with a fully fitted Showhome to view. To register your interest, please contact Hitchambury Homes on 01494 685555 or visit the company website at www.hitchamburyhomes.co.uk.**
