Making a home

Firstly let me introduce myself, I am Roger Perry, the founder and Chairman of Hitchambury Homes. Hitchambury Homes has an enviable reputation which we have built up over 30 years, for creating stunningly light and spacious, bespoke, premium homes in some of the finest and most desirable areas. We pride ourselves on the combination of attention to detail, quality and the superb traditional skills delivered to each and every home we build. Over the coming months I'd like to share with you the start to finish cycle of developing a new home.

We are currently working on a very exciting project in Ledborough Lane, Beaconsfield. Our dedicated land team work professionally and with consideration direct with land owners, land agents and estate agents, in this instance the site was acquired by a personal approach to the owner direct.

With our keen local knowledge, ingenuity, tenacity and the drive to unlock the potential of each site, land owners and purchasers alike are safe in the knowledge that we will obtain planning and create architecturally stunning, bespoke homes that will blend sympathetically with the local vernacular.

Due to our in-depth knowledge of the area, the combined expertise of our professional consultants, I can happily inform you that planning was approved for an opulent four bedroom detached home and we are now at the initial stages of the development.

In the next issue of Exclusive, I will be explaining the land owner's perspective at selling the land to us and our approach to obtaining planning, but until then I wish you all the best.
